## CANADIANA 1974

During 1974 the text and indexes for Parts I and II of CANADIANA have been computer-produced, and have been published as Section 1 of CANADIANA 1974. Cumulated indexes appeared in the March, June and October issues. The annual cumulation provides indexes to Section 1 of the eleven issues of CANADIANA 1974.

### Index A

This index attempts to produce every type of specific entry under which a publication may be sought. It includes authors (personal and corporate), titles, added entries (i.e. associated names such as editors, joint authors, etc.) and series. It also includes cross references from headings not used and, where relevant, histories of corporate bodies occurring as authors.

Index entries refer to the month, year and part of CANADIANA in which the main entry for the item sought is to be found, followed by the Dewey Decimal Classification number. Detailed guidance for each part follows.

#### *Part I Monographs (fully catalogued and classified)*

Reference is to the Dewey Decimal Classification number. Items are subarranged alphabetically by cataloguing entry. Classification numbers occur in the following order:

000-999

j000-999 Juvenile

Example: Richards, David Adams. Small heroics. Jan. 1974 Pt. 1 C811'.5'4

(This item will be found in the January 1974 issue, Part I, under classification number C811'.5'4, subarranged alphabetically by the cataloguing entry, in this case the author: Richards, David Adams)

#### *Part II Theses in microform*

Reference is to the principal classes of the Dewey Decimal Classification. Items are subarranged alphabetically by cataloguing entry.

Example: Fournier, Raymond Joseph. Corneille's early comedies. Jan. 1974 Pt. 2 840

(This item will be found in the January 1974 issue, Part II, under classification number 840, subarranged alphabetically by cataloguing entry, in this case the author: Fournier, Raymond Joseph)

### Indexes B and C

The alphabetical list of the subject headings used in part I refers to the date of the issue and to the Dewey Decimal Classification number of the entry on which the subject heading appears. This list is not intended to be an index to the Dewey Decimal Classification but uses the DDC number only as a location for the entry. If the subject heading is used on more than one entry then it may refer to more than one DDC number. As the subject heading refers only to the DDC number and not to a specific item it may be necessary for the user to search a number of entries which have the same DDC number but which have different subject headings.

## CANADIANA 1974

En 1974, CANADIANA produit le texte et les index des parties I et II en ayant recours à l'automatisation. Ils forment la Section 1 de CANADIANA 1974. Des index récapitulatifs apparaissent dans les livraisons de mars, juin et octobre. L'index récapitulatif annuel de la Section 1 réfère aux onze livraisons de CANADIANA 1974.

### Index A

Cet index offre, autant que possible, toutes les entrées spécifiques sous lesquelles on peut chercher un ouvrage. Il contient des entrées aux auteurs (personnels et collectifs), aux titres, aux vedettes secondaires (i.e. certains noms associés aux publications tels que rédacteurs, coauteurs, etc.) et aux collections. L'index comprend aussi des renvois des formes non utilisées et dans certains cas l'historique des collectivités-auteurs.

L'entrée dans l'index réfère au mois, à l'année et à la partie de CANADIANA dans laquelle se trouve la publication cataloguée, suivie de l'indice de la classification décimale de Dewey. Des renseignements détaillés sur chaque partie suivent ci-dessous.

#### *Première partie. Monographies (cataloguées et classifiées en détail)*

On réfère à l'indice de la classification décimale de Dewey. Les publications sont classées par ordre alphabétique de la vedette principale sous l'indice Dewey. L'ordre de la classification se trouve comme suit:

000-999

j000-999 Pour la jeunesse

Exemple: Fillion, Francine. Oeil pleureur Janv. 1974 Ptie 1 C841'.5'4

(Cette publication se trouve dans la livraison de janvier 1974, première partie, sous l'indice Dewey C841'.5'4, sous-classée par ordre alphabétique de la vedette principale qui est dans ce cas-ci l'auteur: Fillion, Francine)

#### *Deuxième partie. Microcopies de thèses*

On réfère aux principales classes de la classification décimale de Dewey. Les publications sont classées par ordre alphabétique de la vedette principale sous l'indice Dewey.

Exemple: Lavigne, Daniel Marcel. Le Comte de Caylus, moraliste et conteur Janv. 1974 Ptie 2 840

(Cette publication se trouve dans la livraison de janvier 1974, deuxième partie, sous l'indice Dewey 840 et sous-classée par ordre alphabétique de la vedette principale qui est dans ce cas-ci l'auteur: Lavigne, Daniel Marcel)

### Index B et C

La liste alphabétique des vedettes-matière utilisées dans la partie I renvoie à la date de la livraison et à l'indice de la classification décimale de Dewey qui figure en tête de la notice où est inscrite la vedette-matière. Cette liste n'a pas pour but de servir d'index à la classification décimale de Dewey. Elle utilise l'indice de la CDD seulement pour permettre de localiser la notice. Si la vedette-matière est employée pour plus d'une notice, elle renverra peut-être à plus d'un indice. Puisque la vedette ne réfère qu'à l'indice de classification décimale de Dewey et non pas à un ouvrage particulier, il sera quelquefois nécessaire à l'usager de parcourir un certain nombre de notices qui ont le même indice de classification mais des vedettes-matière différentes afin de trouver la notice qu'il cherche.
